Spring Spotlight: Smile Design

We offer free cosmetic consults for anyone wanting to explore their Smile Design options.

Smile Design is for people wanting to adjust the shape, colour or minor alignment of their teeth.

Because Smile Design is not suitable for all aesthetic concerns, our free consults help you and Dr Sri discuss options and understand what is achievable.

Dr Sri is a strong believer in supporting you to get the smile of your dreams, By helping you develop a custom plan, taking into account your health, aesthetic and financial concerns.

Timely reminder: Dental Extras

Make the most of your private health insurance extras by booking your check and clean before the end of the year. Because we don't want you to be one of the almost 2million Aussies that leave their extras unclaimed each year we recommend booking now to get ahead of the end of year rush.

Newsletter

Events: Mind, Body, Mouth Series

Join us for our free dental education series.

Our dental professionals will discuss the how the health of your mind, body and mouth are all connected, providing tailored information for dental health at all ages, spanning from mums and bubs to chronic health conditions later in life.

Keep an eye on our facebook and instagram for topics and dates!

Dental Embassy

Dental Prevention

Dental Disease Prevention is a major focus at Dental Embassy. In 2023 we established and implemented our preventative care department, which is something we are very proud of.

Those of you who have seen our oral health therapists will have experienced the benefits of this already.

What's New

We are so excited to be using our new 3D scanner to take impressions of your teeth to send to the dental lab for creation of splints, crowns and more. Our 3D scanner is a faster and more comfortable alternative to the gooey tray used to take molds of the teeth.
