Interview sneakpeak

"...The most important lesson would be the power of resilience, which helps me to keep bouncing back and moving forward."

Winter Spotlight: 5 years with Dr Sri

May 2024 was Dr Sri's 5 year anniversary as Principal Dentist at Dental Embassy. We want to Thank You for supporting us during this time. Especially those of you who stuck with us through the COVID-19 changes. Please know that we greatly appreciate your continued support and trusting us with your oral health care.

Dr Sri sat down and answered some questions to us an insight into the last 5 years. You can find the full interview on the Newsletters page of our website.

Dental Health Week

Dental Health Week is a nation-wide campaign run by the Australian Dental Association to promote a healthy mouth for life.

This year it will run from the 5th to 11th of August and the theme is Gum Health... Something that our team is very passionate about promoting!

Oral Health Therapists/Dental Hygienists are dental health practitioners that as part of their scope have focused training on the diagnosis, treatment and monitoring of gum disease.

Have you met our Oral Health Therapist, Annie?! Along with looking after your preventative needs of children and adults, Annie cares for all of our patients with gum disease.
